UPDATE

Custom Domain

Set up your domain to connect to Optinturbo For Website

1. Log in to the account you have with your domain provider.
2. Find your DNS settings. Look for your account admin panel, or your domain management area, or DNS configuration, or similar.
3. Edit your A record to point to Optinturbo's IP address **165.22.178.113**

The admin panel might feature drop-downs or editable fields, or you might have to check boxes or edit a table. In the admin, you need to:

- Enter or choose the @ symbol, or A record
- Enter Optinturbo's IP address **165.22.178.113** as the destination for the A record.

4. Save the A Record (click Save, Save Zone File, Add Record, or similar).
5. Find the CNAME record in your DNS settings.
6. Change your www CNAME record to point to **clkrd.co**
7. Save the CNAME Record (usually by clicking Save or Add record or similar).
8. Your Website URL: (Example **https://www.example.com** or **https://example.com**)

Add

Note: After compilation of below steps your domain will be linked and website will be live within 24 hours.
